The American Art-Union,

IN the City of New York, was incorporated by the Legislature of New York for the promotion of

The Fine Arts in the United States.

It is managed by gentlemen who are chosen annually, by the members, and receive no compensation.

To accomplish a truly national object, uniting great public good with private gratification at small individual expense, in a manner best suited to the situation and institutions of our country, and the wants, habits and tastes of our people, the Committee have adopted the following PLAN.

Every subscriber of five dollars is a member of the Art Union for the year, and is entitled to all its privileges.

The money thus obtained, (after paying necessary expenses) is applied,

First.—To the production of a large and costly Original Engraving from an American painting, of which the plate and copyright belong to the institution, and are used solely for its benefit.

Of this engraving every member receives a copy for every five dollars paid by him.

Members entitled to duplicates are at liberty to select from the engravings of previous years.

Whenever the funds justify it, an extra engraving or work of Art is also furnished to every member.

Every member also receives a full Annual Report of the proceedings, &c., of the Institution.

Second.—To the purchase of paintings and sculpture, by native or resident artists. These are publicly exhibited at the Gallery of the Art-Union (till the annual meeting in December, when they are publicly distributed by lot among the members, each member having one share for every five dollars paid by him.

The business of the Institution, out of the city of New York, is transacted by Honorary Secretaries, who receive and remit subscriptions, and deliver to members in their vicinity the Reports, Engravings, and works of Art. They are forwarded at the expense of the Institution.

The income of the Art-Union the last year was \$22,285 dollars, and one hundred and forty-six paintings, varying in price from \$15 to \$500, were distributed by lot among its members, and each member also received a copy of a large line engraving, "Sir Walter Raleigh parting with his wife on the morning of his execution."

The committee have already in progress, for the members of this year, two large engravings, the Jolly Flat-boatmen, to be engraved by Doney, after the picture by Bingham, and the Sybil, to be engraved by Casilear after the picture by Huntington, of both of which, every member will receive a copy.

The annual meeting and distribution will take place this year on the 24th day of December.

It is very desirable that the dues of the members should be paid early in the year, that the Committee may make their purchases at the best advantage.

Subscription and payment may be made to the subscriber, Honorary Secretary for Newport and its vicinity.

We would notice more particularly the Oven, which, by its construction, furnishes a uniform heat, and the baking is performed with less attention and more perfectly, than in any Range or Stove that we have ever used. In a word, it contains many advantages, and consumes a small quantity of fuel.

WHEELING.—We had no idea that Wheeling was such an extensive place until we read the following paragraph in the Times of that city:

The rolling mill here produces at the rate of \$500,000 annually, and another larger establishment of the same kind is progressing. Our foundries yield about \$150,000, engine shops \$100,000, cotton factories \$90,000, steel factory \$60,000, wagon makers \$150,000, paper mills \$140,000, tallow chandlers \$100,000, and glass works \$200,000; silk factory \$75,000, copper and tin workers \$50,000, boat yards \$150,000, cabinet makers \$100,000, tobacco \$120,000, saddle and harness makers \$75,000, chairs \$80,000, white lead \$25,000, hats and caps \$50,000, besides numerous other works of various other kinds, yielding in all, not less than four millions annually. These establishments are all prosperous, having as much as they can do and having a market unsupplied that would be equal to the supply of five more establishments in each branch of business.

THE QUAKER ON DISTANCE.—"Sitting upon the broad piazza which looks out upon the Hudson River race course, watching the great fleet of steamers vying with each other in splendor and speed, and listening to comments upon each, we have been reminded of the satisfaction afforded to a group of kindred conversers by an old Quaker, once upon a time, on Long Island Sound. 'Do you think this boat has gained on the other, Mr. Broadbrim, within the last sixty miles?' 'Friend, I would not be certain, but I do think she has, somewhat.' 'How much, should you think, Mr. Broadbrim?' eagerly asked the group. 'I may be mistaken, but I should say—about an inch!'"

AN UNFORTUNATE SUITOR.—A Massachusetts jury has gallantly decided that a lover cannot recover from a mistress who has given him the "mitten," the little "love-tokens" that she received when she "smiled upon his suit." A discarded swain having been unsuccessful in his suit in the court of Hymen, lately brought one in a court of law, for the recovery of a ring, valued at two dollars and fifty cents, constitutional currency! which he had given to the loved one, in "happier days;" but in this suit he was destined to be equally unfortunate, for the jury rendered a verdict for the fair defendant.

To show the desire of our people for Publicspeaking, Mr. Webster at Savannah, related an anecdote which he had heard from Mr. Clay. That gentleman was once travelling in the west and stopped at a humble cabin for the night, the inmates being only an old man and his wife. Having learned who Mr. Clay was, the old man after breakfast the next morning, could not dismiss his guest without requesting him to make himself and wife a little speech before leaving them.

"The clergy of San Luis Potosi, their people,

"Your daughters and your wives will be seized in your sight, and made victims of lascivious passions, even in the streets and public places. Your tender sons will expire on the points of the swords and bayonets of the barbarous conquerors, directing towards you their last looks of fear and agony; and you yourselves will be seized and bound like brutish beasts for the dungeons of slavery, and savage men, filthy prostitutes, and wild beasts will come and enjoy the comforts and delicacies of your homes."

A MOTHER'S LOVE.—There are few passages more eloquent or true than the following:

Oh! what is there like a mother's love.—Time nor change, distance, disease, wrong, unkindness, cannot exhaust it. It lives a fountain of undying waters; the wanderer may return, and the same hand that wiped away the tear of childhood, will be put upon the fevered brow and the parched lips of the world's rejected victim."

The Pope has forwarded his portrait as a present to Louis Phillippe.

BREAD-STUFFS.—What is the staple production of your district of country? said an Eastern traveller; the other day, to a young farmer in the Miami Valley, as he was refreshing himself with a glass of 'bald face' while the stage-coach stopped to 'water.'

Corn, sir; corn; we raise on our land about seventy bushels per acre, that we manufacture into whiskey, sir, to say nothing about the quantity that is wasted for bread?"

IMPORTANT DECISION.—NEWSPAPERS.—The case of Holden vs. McManis, of the Philadelphia Saturday Courier, has been disposed of, and in favor of the plaintiff.

The principle involved is a novel one, and the decision settles that the good will of a paper is as much property and as valuable as the types and press.

It is stated in the Wilmington, Del. papers that Ann Maria Jones, a very pretty looking young white girl, was convicted of larceny and sentenced to receive twenty-one lashes 'on the bare back, well paid on.'

HAIR DYE DANGEROUS.—The Home Journal states several remarkable cases of persons sinking into idiocy by the habitual use of hair dye, the nitric acid of the dye having poisoned the minute, capillary cells. Mademoiselle Mars, the great actress, who charmed Napoleon, is represented as having been one of the known victims.

"Do you think Jonah cried when he was in the fish's belly?" was the question put to an oily seaman by a sleek quaker.

"Don't know," replied Jack, "but should think not, as there was plenty of blubber without his'n."

The following is said to be the calendar of a Siberian or Lapland year:—June 23d, show melts—July 1st, snow gone—6th, fields green—17th, plants at full growth—26th, plants in flower—August 2d, fruit ripe—10th, plants shed their seed—18th, snow, and the snow and ice continue from August 18th to June 23d.

The Brazilians consider plumpness an essential point of female beauty; and the greatest compliment that can be paid to a Brazilian lady is to tell her that she grows fatter and fairer every day.

THE DAILY NEWS.

Newport:

FRIDAY, JUNE 18, 1847.

BY Q. F. JACKSON, 91 THAMES-ST.

ARRIVAL OF THE CAMBRIA.

The steamship Cambria arrived at Boston at 9 o'clock yesterday morning, 13 days from Liverpool, and with 15 days later intelligence.

On the 19th ult., the markets were exceedingly active, which caused an advance in breadstuffs. This was occasioned by an apprehension that there was going to be a short crop, but the favorable weather since this date has had a re-action on prices, and the market is now more easy, though firm. Flour had declined to 40s per barrel, but is now worth 42s to 44s, the latter being the value of the best Western; sour Flour 37s to 38s per barrel; American Wheat 10s 6d. per 70 lbs. Indian Corn is steadily at 52s to 57s. Indian Corn Meal is in fair demand at 23s per barrel for yellow, and 30s for white.

The emigration from Germany to the United States continues on a truly gigantic scale. It will this year far exceed that of any previous year.

Reuben G. Beasley, Esq., American Consul at Havre died at that port on the 18th inst.

The Mexican privateer which captured the American ship Carmelita is supposed to be nothing but a Spanish pirate.

Daniel O'Connell, the great Irish rebel, died at Genoa on the 15th ult., of congestion of the brain.

Several piratical vessels are reported to have made their appearance in the Archipelago, and on the coast of Greece; and the British authorities at the Ionian islands have consequently ordered two gunboats to be fitted, for the purpose of protecting English traders from their depredations.

Dr. Chalmers—the light of the Free Church in Scotland—died about the last of May.

The accounts from Ireland speak in the most cheering terms as to the prospects of the next year's harvest.

Prince Jerome Bonaparte, nephew of Napoleon, lately died at Florence, from a disease of the spine.

THE PRESIDENT'S VISIT NORTH.—We make the following extract from a Washington letter in the New York Herald, dated June 14th.

We understand, that if the business of the people will allow, the President proposes taking up the line of march to the Northward early next week. His sojourn will be necessarily brief at the various points along the way, and the extent of his tether will depend upon contingencies in the affairs at Washington, which may or may not require his speedy return.

We learn that the Legislature of New Hampshire has passed resolutions inviting him to the hospitalities of the old Granite State.

Commodore Kearney is registered at Coleman's and Lieutenant Vanecko Hunter. To soften the harshness of Commodore Perry, it is expected the President and Secretary of the Navy will concur in giving the command of a ship to Captain Hunter operating in some other quarter than the Gulf, in the interior of the suspension.

We met this morning Mr. Purser, late of the firm of Siam, Bang & Co., Captain Dulancy, of the Chancellor (late from the coast of Africa, with the prize) and the Alverado Hunter, all in a gang. What a gallant trio, to be sure; and including your dependent what an incomparably superior quartette, if our modesty may be excused.

Yesterday was a lovely day, and a few more such would bring a flood of visitors to our town, where they can enjoy such weather. The facilities here for sea-bathing are superior to those of any other watering place, and bathing is no small item with those that visit this place in summer. Our Hotels are second to none in the country, we care not where they are; and this Island presents a great variety of scenery, together with a number of natural curiosities. There is the "Old Stone Mill," too, an edifice built by nobody knows who, which is really worth visiting.

Newport to take a look at.

We are indebted to Mr. Chace, clerk of the Bay State, for last evening's New York papers.

CORN.—The Rochester Democrat says that few people are aware of the increased quantity of Corn planted this year. The prospect that Indian meal will be introduced as a common article of food in Europe has induced farmers to plant all the land they could spare for that purpose. One farmer in Ferrington who never, in former years, planted over twelve acres, has this year planted forty. Another in the same neighborhood, has put in seventy acres, or about five times his usual quantity. We are told that the same proportion will hold good in various parts of the country. With a good demand, corn is a very profitable crop. Heretofore, but little land, comparatively speaking, has been devoted to its cultivation in Western New York—the demand not being sufficient to induce agriculturists to plant largely. Beside there are a great many farmers who will not raise corn for distilling—consequently, they have either neglected it altogether, or have only raised sufficient to supply their own wants. At any price between 60 and 70 cents per bushel, corn is a more profitable crop than Wheat at one dollar.

MEXICAN NEWS.—Lieut. Col. Abbott, with four companies of Massachusetts volunteers, escorting a wagon train and a number of artillery horses, took up the line of march from Matamoros for Cerralvo on the 29th May. Col. Wright with the remaining six companies, was to proceed by boat to Camargo, thence to Monterey, as soon as transportation could be had. The Matamoros Flag of June 2d says:—

"The individual found murdered below Reynosa, as before mentioned by us, turns out to have been a private in Capt. Paul's company of Massachusetts volunteers. A company of Massachusetts men under Capt. Walsh, escorting a train to Camargo, passed the spot a few days since, and identified and buried the body. Capt. W. demanded of some Mexicans residing near the scene of murder to produce the murderers or he would burn down their ranchos. The threat had the desired effect, and three incorrigible scoundrels were handed over to him—one of whom was killed in endeavoring to make his escape, and the other two are imprisoned at Reynosa. The clothes of the murdered man were upon the Mexican who was killed."

The steamer Perry will not leave for Providence to-day, until 2 o'clock in the afternoon. This arrangement is made for to-day only, to accommodate the Friends, whose meeting will break up about noon.

We are indebted to John J. Greenman, Esq., for yesterday's New York papers delivered us at an early hour this morning.

FROM NEW BRUNSWICK.—We have St. Johns papers of the 11th inst., from which we make the following extract:—"It is reported from private letters received from Mirafichi, that the ship Looshtauk, Capt. Thain, from Liverpool for Quebec, with about 400 emigrants, put into that place on Thursday last, in distress, having lost 140 passengers by disease, and that all the crew, with the exception of four, were laid up with sickness."

CHATA.—In our report of yesterday, of the U. S. Court in the case of Latham Hull vs. the town of Richmond, we stated that the damages were laid at \$600. It should have been six thousand.

TRIAL OF BURNELL.—On Monday, at Nantucket, Mr. Rufus Choate spoke four hours for the prisoner. In the afternoon, Clifford, district attorney, closed for the commonwealth, and the jury retired, but not agreeing by 10 o'clock, the court adjourned. On Tuesday morning they brought in a verdict of not guilty. There being other indictments against him, Mr. Burnell was remanded to prison. His bonds are reduced from \$25,000 to \$10,000, which bail may perhaps be obtained.

New Orleans extras of the 9th inst., give accounts of a dreadful steamboat explosion upon Oochita river. The steamer Eda was blown up; twenty-five persons were killed, and eight were wounded.

A fire was discovered on Tuesday, of last week, in the woods upon the land of Ephraim Ellis, near Plymouth, Massachusetts. It raged for two days, and burned over two hundred acres of wood land.

The schooner Oregon has arrived at New Orleans from Tampico, which place she left on the 2d. The rumor of Santa Anna's resignation is confirmed.

U. S. CIRCUIT COURT, Thursday, June 17, 1847. Latham Hull vs. the town of Richmond.—The argument of this cause, which was commenced yesterday morning, occupied all the forenoon of to-day until half past one, P. M., when the Court adjourned for an hour. At the opening of the Court at half past two, P. M., the Judge delivered a charge to the Jury on the law of the case, occupying about half an hour, when they retired.

United States vs. Edward Wilson.—This was an indictment for an assault on Edward Gladding, at sea, on board the brig Emeline, of Bristol, with an intent to kill, in the port of Matanzas, on the 25th of April last. Wilson was one of the crew, and Gladding the mate of the brig. The instrument used by Wilson, was a sheath-knife, with a six inch blade.

For Government, W. S. Burgess, Esq., U. S. District Attorney; for defendant, Messrs. Jencks and Hazard.

The jury returned a verdict of guilty, and Wilson was sentenced to two years imprisonment, at hard labor, and to pay a fine of two hundred dollars.

Up to the adjournment of the Court, no verdict had been rendered in the case of Latham Hull vs. the town of Richmond.

FURTHER FROM MEXICO.—Capt. Lauma, of the Pennsylvania volunteers, informs the Picayune that the enemy were fortifying Rio Frio, and rapidly progressing with the fortifications—that an English courier had arrived at Vera Cruz the night before the New Orleans left, who said positively that twenty thousand Mexicans were engaged on the works; but another account reduces the number to twelve thousand. Capt. Lauma estimated the total number of effective men that Gen. Scott can concentrate at Puebla, at fifty-six hundred, independent of those recently arrived.

Gen. Alvarez is said also to have ten thousand men in the vicinity of the capital.

Verbal accounts, not credited, report positively the election of Herrera; others, that he had declined; that it was his intention to employ himself in making peace, and had created Valencia Commander-in-chief, and ordered the arrest of Santa Anna and Camillo.

The British courier mentioned that when he left the capital, Herrera had not been elected, but that Santa Anna continued to enjoy the title with less discredit than reported. The same courier contradicted positively the rumor that a large portion of Worth's force had been cut off at Puebla; and states that Scott was at Puebla, and that Santa Anna was elected President on the 15th of May, but declined. Herrera was the next prominent Presidential candidate, and a new election would take place on the 5th inst.

Gen. Bravo had resigned as Commander-in-chief.

The sent of government had been removed to a small place south of the capital. The city is in a beautiful state of confusion.

Gen. Cadwallader, with a portion of his command, arrived at Vera Cruz on the 1st. Guerilla parties had laid waste all the ranchos on the road up, and had also driven off all peaceably disposed proprietors.

Major Gaines, now in Mexico, has been nominated as the whig candidate for congress from the tenth district, Kentucky.

We are indebted to Capt. Woolsey, of the Perry, for a copy of yesterday's Providence Transcript.

DORCHESTER, Mass., June 15. Dr. F. Brown.—Dear Sir:—It affords me great pleasure to be able to bear testimony to the valuable properties of your Sarsaparilla and Tomato Bitters. You probably remember the situation I was in when I commenced using them by the advice of my friends; the suffering which I have borne for a long time from the effects of a most terrible humor is almost indescribable; it covered my chest and arms, breaking out at times in quite large sores. Medicine after medicine did I try, without the least relief, and I gave up ever expecting to be cured; but at last I was persuaded to make use of your Sarsaparilla and Tomato Bitters; but I must say I commenced with great reluctance, thinking it would eventually fail to relieve me, as all other medicines had done. But how happily have I been disappointed. It has entirely cured me. Nothing that I do affords me more pleasure than recommending your Bitters to persons similarly afflicted, and I do most earnestly recommend all to try them before they give up, so highly I keep them in the house, and use them in my family, as I consider them the best, pleasantest, and most thorough medicine now in use, removing all impurities, carrying off all bile, without

out weakening the system, or being obliged to change your diet.

After showing this to any one, if they are not perfectly satisfied, ask them to call on me, and I will explain my case more fully, which it will afford me great pleasure to do.

Yours respectfully,

JUNE 18 DANIEL PLUMMER.

Dear Sir:—I take pleasure in communicating to all whom it may concern, and the public generally, the astonishing effect your truly wonderful medicine has had upon me. I have enjoyed perfect health for four or five years. Physicians told me that my liver was diseased, and that I might some day die with consumption. Last September, 1845, I took a slight cold, which produced a hacking cough; this continued until February, 1846, when I added another cold: my cough increased, I soon lost my appetite, and my strength failed. For six weeks I could not lie upon one side: I sweat very much at night, raised considerable blood during the winter, and could not speak aloud for two weeks. With all these bad symptoms, I had very severe pain in my side and between my shoulders: general debility followed. I was confined to my room about eight weeks. I had buried a sister and brother, both died with the Consumption. I expected to die myself; my friends also despaired of my life. At this time an uncle, who had been benefited himself, advised me to take

WISTAR'S BALSAM OF WILD CHERRY. I accordingly procured a bottle, took it, and felt some better; obtained another, and a third; then I ceased to bleed and my cough was much better; but my disease was so deeply rooted, I was obliged to continue taking the Balsam until I had taken seven bottles. I can honestly and truly say, I believe Dr. Wistar's Balsam of Wild Cherry saved my life.

MRS. MARY B. GOULD. We are personally acquainted with Mrs. Gould—assisted in taking care of her during her sickness, believe and know the above statement to be true.

MRS. P. C. PRESCOTT.

MADAME DE BONNEVILLE'S Office hours for consultations for the treatment of DISEASES BY MAGNETISM, AND HYDROPATHY, from 12 o'clock to 2 o'clock p. m., at Union Hall, rear of the Universalist Church, Westminster St., at PROFESSOR DE BONNEVILLE'S, at 8 o'clock a. m. June 16, 3 m.

Oh, what glorious silky, jet black hair That man and lady have! 'Tis indeed rare To see such soft, clear hair; yet, as I live! 'Twas a bottle of JONES' HAIR RESTORATIVE

Gave them those beautiful tresses. Before they used it, Like other silly folks, they abused it; And, though their hair was once gray, harsh and dry

One FIFTY CENT bottle they used, and thus they saved the world to show level hair. Then, who with bad will live, And not use JONES' HAIR RESTORATIVE?

Honestly and truly, there never was as good, or half as good, an article made to force the hair to grow dark, stop falling off, cure the scurf or dandruff, and make red or gray hair dark; it dresses the hair beautifully, and keeps it moist, soft, and silky, three times as long as any other article made.

Boston, Dec. 10, 1846.

This may certify that I have used Pool's Lotion, (as prepared by Messrs. Ames and Olds) for Scalds, Burns, Bruises, &c., and am happy to say that I believe it is all it purports to be.

From the Boston Daily Herald, of Feb. 12, 1846. HYPERION FLUID.—Those who wish for a valuable preparation for the hair, are referred to Mr. Bogle's advertisement in another column. His Hyperion Fluid, it is supposed, will soon supersede most fluids now in use for the hair, as it is of very superior quality.

Rev. R. Hibbard's Vegetable Anti-Bilious Family Pills.—Ask for the Rev. R. Hibbard's Vegetable Pills, and be careful that a spurious article is not imposed upon you, under the name of Hibbard's Pills.

No agent is authorized to sell less than a sealed package or box of 12 1-2 cents, or 50 cents. Full directions go with each size.

These truly invaluable Pills are recommended as being without an equal in all Fevers, Bilious attacks, derangement of the Liver or Bile, Stomach, Lungs, or Bowels, and give relief as sure as taken. The more violent the attack, the more promptly do they act in allaying it. They have also proved the most prominent and certain cure for the promontory symptoms of the Asiatic Cholera, Cholera Asphyxia, and no person need fear this disease, having these Pills at hand. Minute doses—as a quarter of a Pill each night—persevered in for a few weeks, act as a potent tonic, strengthening the whole system, and curing old chronic and subacute diseases, sick Headache, Dyspepsia, Consumption, &c.

Testimonials from Physicians and others continue to be received at the Principal Office, No. 25 John street, New York, by T. R. Hibbard, Druggist.

Such is the powerful and masterly control which these Pills uniformly exert over disease, whether chronic or acute, that every agent stands ready to receive the empty box, and refund the money—in all cases, where they fail to cure, or come fully up to the recommendation given.

They are expressly intended for family use, and

may emphatically be termed the poor man's blessing. Price 12 1-2 cents for the small, and 50 cts. for the large sized boxes.

Dr. Danning's Patent Noddy Lotion, For Weakness of the Body.

The following letter is submitted to a discerning public, and the proprietor is enabled to refer to many individuals—whose testimony will satisfy the most incredulous. The particular and get Danning's Lotion, and be put off with nothing else.

WARRER, August 23, 1846.

Dr. Boardman.—Dear Sir:—Now being about leaving for home, I am able to give thus far a favorable account of the Lotion which I have worn only four days. For more than four years I have suffered greatly from dyspepsia, that scourge of our race. My food has always been so troublesome that my stomach would reject it almost every day—my bowels always constipated—my head always feeling heavy and unpleasant, and my spirits greatly depressed. I was unfit for any regular business, and till I saw you, I had given up the hope of ever being better. I had consulted many physicians and in Boston, those the most celebrated, and spent nearly all the money I could earn, upon them and medicines. Since I have worn the Lotion, all these symptoms have in a great degree vanished, and now, it seems to me, I shall be well again. I find my body regaining its erect position—the spitting up my food is pretty much over, my spirits and energy are returning, and I feel like a new man.

Sept. 4. S. W. HILL.

THE BEAUTIFUL YOUNG LADY OF BROOKLYN AND RADWAY'S CHINESE MEDICATED SOAP.—Last fall we published a letter from a young lady in the city of Brooklyn, who, while on a visit to her friends in New Jersey, had experienced intense pain from the bites of mus quettes, and great annoyance from the unnatural darkness of her tanned complexion. Her skin had become parched, dry, and unhealthy—covered with pimples, blotches, pustules, freckles, &c., she was recommended by some friends to use, as a toilet emollient,

Radway's Chinese Medicated Soap.

A few days' use of this very excellent and superior Soap exceeded the expectation of all; her skin became smooth, soft, pure, sweet, and healthy; her complexion restored to its former fair-passing appearance, all of which owed its restoration to the curative properties and soothing influence of Radway's Chinese Medicated Soap.

This is but one out of thousands of others, who prefer the use of Radway's Soap to all other soaps recommended for the same purposes. We do not pretend that our Soap will restore the complexion of the emaciated victim of consumption to the bright hue of health, as some of our competitors vainly claim, and promise to do; but we do pretend to say that Radway's Chinese Medicated Soap stands unrivalled in the productions of Chemists, for the purposes for which it is recommended, and is a superior article to the Euc Divine de Venus and Nymph, (which is introduced to the public by our own matter, which the proprietor of that article has ungenerously copied from one of our Circulars of 1845, without our permission, slightly altering the phraseology of our language to suit his own purpose,) or any other Soap in the market.

Nw we leave the public to judge for themselves. Do you wish to possess a fair, healthy pure, and sweet skin, free from all spots, blemishes, freckles, pimples, blotches, pustules, ring worms, &c? Use the genuine Radway's Chinese Medicated Soap, which is warranted by us to do all that it is recommended. This soap is sold cheaper than any other article of the kind in the market, and for ordinary toilet purposes it will do more service than other Soaps of three times its bulk. Sold for only ONE SHILLING per cake, by R. J. TAYLOR, C. G. C. HAZARD, and B. H. TISDALE, Newport. Country Agents can be supplied by R. J. Taylor, J. & R. G. RADWAY, June 3 No. 2 Courtland street, N. Y.

Ladies are Cautioned
AGAINST using Common Prepared Chalk.—They are not aware how frightfully injurious it is to the skin, how coarse, how rough, how yellow, and how unhealthy the skin appears after using prepared chalk! Besides it is injurious, containing a large quantity of lead!
We have prepared a beautiful vegetable article, which we call JONES' SPANISH LILY WHITE. It is perfectly innocent, being purified of all deleterious qualities; and it imparts to the skin a natural, healthy, alabaster, clear, living white; at the same time acting as a cosmetic on the skin, making it soft and smooth.
Dr. James Anderson, Practical Chemist of Massachusetts says:—"After analyzing Jones' Spanish Lily White, I find it possesses the most beautiful and natural, and at the same time innocent white I ever saw. I certainly can conscientiously recommend its use to all whose skin requires beautifying."
Price 25 cents a box.

A Fine Set of Teeth for 25 cts.
YELLOW and unhealthy teeth, after being once or twice cleaned with JONES' AMBER TOOTH PASTE, have the appearance of the most beautiful ivory, and, at the same time, it is so perfectly innocent and exquisitely fine, that its constant daily use is highly advantageous, even to those teeth that are in a good condition, giving them a beautiful polish, and preventing a premature decay. Those already decayed it prevents from becoming worse—it also fastens such as are becoming loose, and by perseverance it will render the loosed teeth delightfully white, and make the breath delicately sweet.
Price 25 or 37 1/2 cents a box.

Miracle.
ON the 4th of August, in the year 1813, a singular scene occurred in the Royal Scientific Institution of France. The aged, white headed President, his head bare, his arms outstretched, his face radiant with smiles, (for science was triumphant), and his voice with gratulatory tone, delivered the following report:
"We are astounded at this singular preparation. Where indeed will science stop! Here we have a preparation made in the form of a beautiful piece of soap, which we know by actual practice, to cure every cutaneous eruption, every disfigurement of, and even discolored skin! Where will its magic and singular power cease! The Negro, the Grease, the Yellow Race of the East, and the Red Man of the far West, are alike under the influence of its extraordinary powers of clearing yellow or discolored skin, and making it white and beautiful, and of changing the color of dark, or black, or brown skin." (Here several persons were brought forward by the President, who had used it, in proof of his assertion.)
There are probably few persons of intelligence, who, after reading the above, will doubt the qualities of JONES' ITALIAN CHEMICAL SOAP, in curing Pimples, Blotches, Salt Rheum, Scurvy, Erysipelas, Sore Heads, Old Sores, Beard and Barber's Itch, Chapped and Tender Flesh, Freckles, Tan, Sunburn, and changing dark sunburn or yellow skin to a pure, clear white, as smooth and soft as an Infant's, and in fact every kind of eruption and disfigurement. Read these certificates:
[From the N. O. Sentinel, Oct., 1814.]
One of our subscribers, Mr. H. Leonard, informs us that he has been cured of old, scaly Salt Rheum, of eighteen years standing, on his head, fingers and hands, by a cake of an article much advertised lately—we speak of Jones' Italian Chemical Soap. He also informs us that he has tried its effects on his female slave Rosa, much marked with sun spots, and he found in two weeks her skin much clearer and whiter.
James Eltham, a painter in Jersey City, was cured of carbuncles and pimples, which he was afflicted with for many years, by part of a cake of Jones' Italian Chemical Soap.
Persons in purchasing this must always ask for Jones' Italian Chemical Soap; and perhaps, as many who have been cheated with counterfeits, will be too much discouraged to try the genuine, we say to such, try this once—you will not regret it; but always see that the name of T. JONES is on the wrapper. For sale in Newport by

TO THE LADIES IN PARTICULAR.
MY DEPLORABLE POWDER has been found highly beneficial and of great use to ladies who have been afflicted with superfluous hair, principally when its growth has been confined to the upper lip and side of the face, giving a masculine turn to the whole features. When used with proper care, and according to the directions, it will be found to be a great addition to the toilet, as the use of any sharp instrument is entirely avoided, and the hair is removed in five or ten minutes after its application.
This composition is infallible, and warranted to remove superfluous hair. After numerous trials, I have received certificates of success which cannot be contested. For sale, wholesale and retail, at

New and Important Arrangement.
W. GOFF has the pleasure of informing his patrons that an arrangement will be completed in the course of next week by which he will be able to furnish the third and latest edition of the New York Express, which goes to press only one hour before the steamers leave for Newport and Fall River. This will be a new and important feature in Newspaper Agency.
I would further state to those who subscribe and receive their daily papers by mail, that they are paying Two Dollars and twenty-four cents per year more than it costs to receive them of me.—Merchants, too, who generally have a quick eye on the Markets, can always get the latest price current before the mail is distributed.

IT is now about ten years since this medicine has been introduced to the public, and it stands unrivalled in its effects, bearing the test of the severe scrutiny of all classes, both friendly and unfriendly. It is but for one purpose,—for the use of Mothers who have to pass through a sea of affliction in giving birth to mankind, not to be described. It is to you we make an appeal. It is for your especial and general good that you should make use of one bottle of the MOTHER'S RELIEF before confinement. Then you can approach the parturient chamber without feeling as if you were going to the chamber of death. You may rest assured it will still all febrile and nervous affections. Its smoothness and shields from irritation and by its peculiar properties it destroys the cause of hemorrhage or inflammation that so often attend and follow the hour of parturition. It causes sweet and natural rest, and at last facilitates the birth, so that Mothers have not to pass through such excruciating pain and distress. The Mother's Relief may be depended upon in all cases of threatening abortion where it is possible to be prevented in cases of Spasms, &c., causing frequent relief from two to three doses will give immediate relief.

As the subject is one that cannot with propriety be fully discussed in this public manner, we invite all who feel interested to call on our agents (most of the respectable Druggists in the United States) or on the manufacturer, and they will be furnished with a pamphlet in which they will find all the facts to form a correct opinion of its merits, and also the opinions of many physicians of eminence, and of persons who have become acquainted with its beneficial effects.

CAUTION TO PURCHASERS.—Ask for BARTHOLOMEW'S Mother's Relief. None is genuine unless our signatures are found within the wrapper of the direction that is pasted on the bottle, signed with our own hand, and over the neck of the bottle is a fac-simile of our own hand writing all this. By attending to the above directions, no one can be imposed upon. All orders will be promptly attended to.

Office on the corner of Fitzhugh street, opposite the Co. Clerk's office, Rochester, N. Y.
